

Audio Cable

GUITAR CABLE

A specially designed cable for guitar, bass or keyboard. Connect to amps, mixers, effects pedals and outboard signal processing gear. Made with oxygen-free copper (18AWG strands) for low capacitance and low series resistance. Features a bright, ringing sound and reduced microphonic handling noise. Stays flexible even in sub-zero weather. Sold by the foot.

MICROPHONE CABLE

Standard diameter 2-conductor microphone cable for general purpose audio applications. The high density braided copper shield and two inner conductors (composed of 60 thin strands of copper wire), allow for maximum flexibility and reduced handling noise. A special compound PVC outer jacket resists cracking and tears even in sub-zero environments. Sold by the foot.

STAR QUAD MICROPHONE CABLE

The premier Star Quad cable for all hand held microphone applications. Flexible, satin smooth to the touch and extra-strong, this standard diameter, 21 AWG cable fits perfectly in all XLR-type audio connectors. 40 separate strands in each conductor eliminate breakage due to flexing. Sold by the foot.
