PELICAN™ Cases and Products

PROTECTIVE CASES WITH FOAM

These cases are watertight, airtight, dustproof, chemical resistant, corrosion proof and virtually unbreakable. Made of ultra high-impact structural copolymer, they are extremely strong and durable. The exclusive 1/4" neoprene O-ring and ABS latches seal perfectly and the automatic

pressure equalization valve ensures equal air pressure inside and outside the case. Your equipment can fit into the high density foam or padded dividers for protection against impact, vibration or shock. Recommend temperature range: -23 to 99°C.

PLATT® Molded Cases

BLOW MOLDED

These foam filled cases are manufactured from prime, high-density polyethylene, with double wall construction. The textured exteriors resist dents, cracking and scuffs. The shells are unaffected by extreme temperatures.
