Testers - Data/Telephone

DIGITAL VDV WIRING TESTER

GREENLEE

- *Detects shorts, opens, crossed and split pairs in UTP, STP*
- *Detects reversed telephone wires*
- *3 distinct tones for tracing/troubleshooting*
- *Warning of hazardous voltages*

Simplifies testing of both LAN and telephone wiring. Tracing mode can be adjusted for high performance LAN networks. Includes standard connection types: RJ45, RJ11 and BNC, and test leads.

MODEL	
NC-100	

DIGITAL VDV WIRING TROUBLESHOOTER

GREENLEE

- *Tests UTP, STP and coaxial cables up to 600m via TDR*
- *Generates 4 tones for tracing LAN cabling*
- *Identifies active devices on Ethernet*
- *Patch cable and remote jack wire-map*
- *Remote jack ID and verification*

For fast, accurate checking of continuity, pair allocation, cable length and network service. Use either a fingertip or the built-in stylus on the touch screen. Display settings include English, French and Spanish.

MODEL	
NC-500	

NETCAT PRO 2 ACCESSORY KIT

GREENLEE

- *Includes 7 digital remotes (RJ45 and F type)*
- *Comes with carry case*

MODEL	
NC-510	

BASIC TONE & PROBE TRACING KIT

GREENLEE

TONE PROBE:
- *Adjustable volume control*
- *Replaceable tip*

TONE GENERATOR:
- *Continuity and polarity LED*
- *External warble select*
- *Single line modular LED*
- *Alligator clips and case*

MODEL	
601K-G	

INDUCTIVE AMPLIFIER

- *Use along with a tone generator for wire/cable identification*
- *No metallic contact required*
- *Adjustable volume*
- *LED indicates signal strength*

GREENLEE

200EP	

HDMI CABLE MAPPER

CIRCUIT-TEST

- *Fault identification, pin by pin*
- *Detailed information on miswiring and other faults*
- *LED indicators for signal status*
- *Requires 9V battery, not included*

MODEL	
E-852	

HDMI CABLE TESTER

CIRCUIT-TEST

- *End-to-end continuity testing*
- *LEDs indicate status of each of the 19 pins*
- *Requires 9V battery, not included*

MODEL	
E-851	

### FOX & HOUND 3 - KIT WITH CASE

TRIPLETT

- *2-tone generator with high-gain, hi-impedance amplifier*
- *LED gets brighter as the signal gets stronger*
- *Adjustable volume / sensitivity*
- *Shielded design to suppress feedback*

MODEL	
3399	

LAN & AUDIO VIDEO CABLE-CHECK TESTER

Paladin Tools

- *Test network cable for opens, shorts, cross-connections*
- *Connection type: RJ45 (UTP or STP) and "F" coaxial*
- *Test for continuity in LAN and coax installations*
- *Map cable pin-out*
- *Maximum length: 500m*

MODEL	
PA1594	

LAN PRONAVIGATOR TESTER

Paladin Tools

- *Simple, one-button testing of network installations*
- *Detects opens, crossed wires & split pairs*
- *Wire tracing and fault analysis*
- *Also connects to BNC-terminated coax*
- *Compact, lightweight, includes lanyard*

MODEL	
PA1543
