

PA Amplifiers

COMMERCIAL MIXER AMPLIFIER

- 8 multi-use inputs
- Front panel iPod, MP3 or computer input

The Sound Acoustics C-Series commercial mixer amplifiers provide constant-voltage outputs for background music and voice paging. Ultra low noise, high headroom circuitry provides crystal clear audio for the most demanding environments. Operational features include front panel iPod, MP3 or computer inputs, telephone input with auto override and volume control, individually switchable 24V mic inputs, and much more. Special features are included to allow system expansion, easy installation and intuitive operation.

MODEL	OUTPUT	
C-8120	120W RMS @ 25/70/100V & 4Ω	
C-8240	240W RMS @ 25/70/100V & 4Ω	

PA AMPLIFIER 15W - 12VDC

Compact amplifier featuring 15W output power at 4Ω, 1 balanced microphone input and 1 auxiliary input. Separate mic/aux volume controls. Comes with mounting hardware.

MODEL	
SA-15	

COMMERCIAL AMPLIFIER

- 40W RMS output @ 25/70/100V, 4Ω
- 5 multi-use inputs
- Front panel iPod, MP3 or computer input

The Sound Acoustics C-540 commercial amplifier provides constant-voltage outputs for background music and voice paging. It's ultra low noise, high headroom circuitry provides crystal clear audio for the most demanding environments. Special features are included to allow system expansion, easy installation and intuitive operation.

MODEL	OUTPUT	
C-540	40W RMS @25/70/100V & 4Ω	

PA MIXER AMPLIFIER 30W

Desktop-sized mixer and 30W PA Amplifier with speaker outputs: 4Ω, 8Ω, 16Ω, 70V, 100V. Frequency response: 100Hz to 20KHz, with total harmonic distortion 2.5% at 30W. Microphone, Aux and CD inputs.

MODEL	
SA-32	

COMMERCIAL TUNER AMPLIFIER

- 48 digital tuner presets
- Constant-voltage outputs for paging and background music
- Designed for easy installation, operation and expansion

The Sound Acoustics CT-10 commercial tuner amplifier provides constant-voltage outputs for background music and voice paging. It's ultra low noise, high headroom circuitry provides crystal clear audio for the most demanding environments. Special features are included to allow system expansion, easy installation and intuitive operation.

MODEL	OUTPUT	
CT-10	10W rms @25/70/100V & 4Ω	

Microphones

Sleek design paging and conference microphones with 16" gooseneck. Engineered for high sensitivity, low noise and excellent feedback rejection, they come with a 30ft XLR cable for balanced output, XLR - Euroblock adapter and wind sock.

MODEL	DESCRIPTION	
PRO-DESKC	Condenser Microphone - Condenser 'C' capsule	
PRO-DESKD	Dynamic Microphone - Dynamic 'D' capsule
