

Foreign Voltage Converters

CIRCUIT-TEST

STEP DOWN CONVERTERS

Designed for electrical appliances rated at 110/120VAC and used in countries where only 220/240VAC is available. TC1600 model is only for use with heating elements (eg. incandescent lamps, curling irons) - not for devices containing low-power electronics.

MODEL	DESCRIPTION	
MW50R	Travel Transformer - 50W	
MW86U	Travel Transformer - 85W	
TC1600	Travel Converter - 1600W	

STEP DOWN HI LO VOLTAGE ADAPTER KIT

Dual circuit converter with five adapters (3-300, 3-350, 3-400, 3-670 and 2-in-1) for world wide travel. Switchable between 1600W and 50W. Converter and adapters come in a soft pouch. Note: 1600W mode is only for use with heating elements (eg. incandescent lamps, curling irons) - not for devices containing low-power electronics.

MODEL	
4-HILO-KIT	

STEP UP CONVERTER

For use in North America with any 220-240V appliance between 1 and 55W. Accepts two round pin European-style plugs. Do not use heat-producing appliances or any item rated over 55W.

MODEL	
TC-55U	

STEP UP/DOWN CONVERTERS

Adapts electrical equipment for use in either Europe (220V) or North America (110V). Each unit has one input (see N.A. plug in image), either European (part number suffix 'E') or North American (suffix 'A'), and outputs (receptacles on front) for both European and North American plugs.

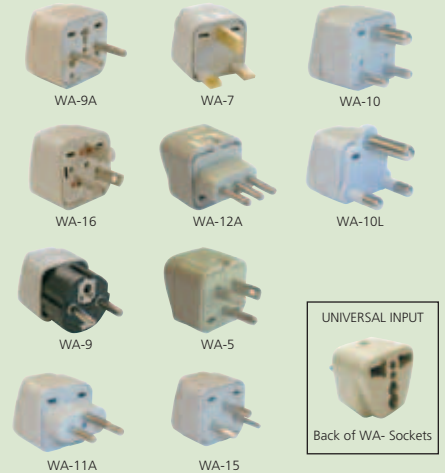

MODEL	DESCRIPTION	
NORTH AMERICAN PLUG		
TC-200A	200 Watts	
TC-300A	300 Watts	
TC-500A	500 Watts	
TC-1000A	1000 Watts	
TC-1300A	1300 Watts	

MODEL	DESCRIPTION	
EUROPEAN PLUG		
TC-200E	200 Watts	
TC-300E	300 Watts	
TC-500E	500 Watts	

Foreign Plug Adapters

Travel Plug Adapters convert the electrical plug from one country to fit in various AC receptacles around the world. Does not convert the voltage.

MODEL	DESCRIPTION	
WA-9A	2 Pin Plug - European	
WA-16	3 Pin Plug - Australia/NZ	
WA-9	3 Pin Plug - European	
WA-7	3 Pin Plug - Great Britain	
WA-12A	3 Pin Plug - Italy	
WA-5	3 Pin Plug - North America	
WA-10	3 Pin Plug - India / Hong Kong	
WA-10L	3 Pin Plug - South Africa	
WA-11A	3 Pin Plug - Switzerland	
WA-15	3 Pin Plug - Israel	

Variacs

No wiring required, just plug in the equipment to be tested and plug the variac into 110VAC. Output voltage is continuously adjustable from 0-130VAC.

MODEL	DESCRIPTION	
SC-3M	Variac with Meter - 3A, 300W	
SC-10M	Variac with Meter - 10A, 1000W
